Section 9-11-54

Special fishing license for totally disabled persons; period of validity; request for recertification of disability; fee of issuing authority; definitions.

(a) Any person who is totally disabled and who has been a bona fide resident of this state for not less than six months next preceding the date of application may, upon the payment of an issuance fee of \$1.00, procure a special disabled person's fishing license in the following manner: The applicant shall file with the person, in the county in which he or she resides, who is duly authorized to issue licenses, an application, stating his or her age, place of residence, post office address, and length of residence in this state. The application shall have attached a sworn statement by a licensed physician or chiropractor of this state stating that the applicant is totally disabled.

(b) The fishing licenses issued pursuant to this section shall be valid on a continuous basis during the period of total disability; provided, however, that any conservation enforcement officer may, upon reasonable belief that the license holder is no longer totally disabled, request the holder to obtain a recertification of disability, which request shall be in writing. Upon the failure of the holder to furnish the recertification of disability within 90 days of receipt of request, the holder's license shall be void and shall be confiscated by the Department of Conservation and Natural Resources, Division of Wildlife and Freshwater Fisheries.

(c) The issuing officer or authority shall be allowed an issuance fee of \$1.00 for each license issued. In counties in which the probate judge or issuing officer is on a fee system, the issuing fee shall be retained by the probate judge or issuing officer, and in a county in which the probate judge or issuing officer is on a salary basis, the issuing fee shall be paid into the county treasury. These licenses shall not be issued by special agents. The name of the physician certifying to the disability of the licensee shall be written upon the license.

An eye in which the visual field is reduced to five degrees or less concentric contraction shall be considered for the purposes of this section as having a central visual acuity of 5/200 or less. No applicant shall be considered disabled unless he or she furnishes the required medical statement setting out the fact of such disability.
